RULES

ne

CONCERNING

HORSE-RACING IN GENERAL

WITH A DESCRIPTION OF

A POST AND HANDICAP MATCH.

ORSES take their ages from New May-Day.
Catch Weights are each party to appoint any Perfon to ride without weighing.

Give-and-Take Plates, are 14 hands to carry a stated weight, all above or under, to carry extra, or be allowed the proportion of seven pounds for an inch.

A Whim Plate, is weight for age and weight for inches. A Post Match, is to insert the age of the horses in the articles, and to run any horse of that age, without declaring what horse, till you come to the Post to start.

A Handicap Match is for A. B. and C. to put an equal fum into a hat, C. who is the handicapper, makes a Match

B 2

11

for A. and B. who, when they have perused it, put their hands into their pockets, and draw them out closed, then they open them together, and if both have money in their hands, the Match is confirmed; if neither have money, it is no Match: in both cases the handicapper draws all the money out of the hat; but if one has money in his hand, and the other none, than it is no Match; and he that has money in his hand, is entitled to the deposit in the hat.

The horse that has his head at the Ending-Post first,

wins the heat.

Riders must ride their horses to the Weighing-Post, to weigh, and he that dismounts before, or wants weight, is distanced.

If a Rider falls from his horse, and the horse is rode in by a Person, that is sufficient weight, he will take place the same as if it had not happened, provided he goes back to the place where the Rider fell.

Horfe plates or shoes not allowed in the weight.

Horses not entitled to start without producing a proper certificate of their age, if required, at the time appointed in the articles, except where aged horses are included, and in that case, a junior horse may enter without a certificate, provided he carries the same weight as the aged.

All bets are for the best of the Plate, if nothing is faid

to the contrary.

For the best of the Plate, where there are three heats

run, the horse is second that wins one.

For the best of the heats, the horse is second that beats the others twice out of three times, though he doth not win a heat.

A confirmed bet cannot be off without mutual confent. Either of the bettors may demand Stakes to be made.

and on refusal, declare the bet void.

If a Party is absent on the day of running, a public declaration of the bet may be made on the Course, and a demand whether any Person will make Stakes for the absent Party; if no Person consents to it, the bet may be declared void.

Bets agreed to pay or receive in town, or at any other particular place, cannot be declared off on the Course.

At Newmarket, if a Match is made for a particular day, in any Meeting, and the parties agree to change

the day, all bets must stand, but if run in a different Meeting, the bets made before the alteration are void.

The Person that lays the odds, has a right to choose

his horse, or the field.

When a Person has chosen his horse, the field is what starts against him, but there is no field without one starts with him.

Bets made for pounds are paid in guineas.

If odds are laid without mentioning the horse before it is over, it must be determined as the bets were at the time of making it.

Bets made in running, are not determined till the Plate is won, if that heat is not mentioned at the time of betting.

Wherea Plate is won by two heats, the preference of the horses is determined by the places they are in the 2d heat:

Horses running on the wrong side of the Post, and not

turning back, are distanced.

Horses drawn before the Plate is won, are distanced. Horses distanced, if their riders cross and jostle, when the articles do not permit it.

If a horse wins the first heat, and all others draw, they are not distanced if he starts no more, but if he starts again by himself, the drawn horses are distanced.

A bet made after a heat is over, if the horse betted

on does not fart again, is void.

When three horses have each won a heat, they only must start for a fourth, and the preference between them will be determined by it, there being before no difference between them.—No distance in a fourth heat.

Bets determined, though the horse does not start, when the words absolutely, run or pay, or play or pay are made

use of in betting.

t

đ

y

T

.

Example. I bet that Mr. Cookson's br.-bay horse, Diamond, absolutely wins the King's Plate at Newmarket next Meeting; the bet is lost though he does not start, and won though he walks over the Course by himself.

A bet made that a horse wins any number of Plates in a fixed time, are void if he does not start for one; but after he had started for one, provided there is a field,

the bet is loft if he starts no more.

In running of heats, if it cannot be decided which is first, the heat goes for nothing, and they may all start

B 3

again, except it be in the last heat, and then it must be between the two horses, that if either had won, the race would have been over, but if between two, that the race might not have been determined, then it is no heat, and the others may all start again.

Horses that forfeit are beaten horses, where it is run

or pay.

Bets made on horses winning any number of Plates that year, remain in force till the 1st day of May.

Money given to have a bet laid, not returned, if not

run.

To propose a bet, and fay DONE first to it, the Person that replies DONE to it, makes it a confirmed bet.

Matches and bets are void on the decease of either

party, before determined.

In the early part of the week the mares were the favourites; a few bets were made on Lopcatcher against the field. But the heavy rains occasioned a great part of the Course to be inundated on the day of the race, the public opinion shifted to the horse which seemed the strongest, and Honest John became the favourite till after the second heat, when high odds were bet in favour of Duncan.
